PROFESSIONAL PROFILE

A 3rd-year B.Tech student specializing in Cybersecurity at Uttarakhand Technical University (Lateral Entry), I am passionate about ethical hacking, OSINT, and AI-powered security systems.. I am actively building foundational knowledge through coursework, hands-on projects, and competitive participation in CTF events.

SKILLS

Cybersecurity & Ethical Hacking

Ethical Hacking Fundamentals, Application Security, Steganography, Penetration Testing (Kali Linux, Parrot Linux), Web Security & Vulnerability Assessment

WEB Development

React.js, Vite, Tailwind CSS, JavaScript & TypeScript, HTML5, ASP.NET Core MVC, .NET Core FrameworkFlask

Oracle Database & PostgreSQL

Additional Skills

Public Speaking & Debate, Leadership & Team Collaboration, Communication Skills

EDUCATION

B.Tech in Cybersecurity

Faculty of Technology, VMSB Uttarakhand Technical University

Aug 2023 – Present

Relevant Coursework: Network Security, Ethical Hacking, Cyber Law, Operating Systems, Computer Networks

UG Diploma in Civil Engineering

Government Polytechnic, Kashipur

Completed: Dec 2023

Senior Secondary (PCM – Non-Medical)

NIOS

Completed: Apr 2020

Secondary (CBSE)

Hind Public School

TECHNICAL ACTIVITIES & ACHIEVEMENTS

CERTIFICATIONS

Cyber Job Simulation, Deloitte Australia

Diploma in Financial Accounting, Tally Academy

Full Stack Developer, CodeYogi

WORKSHOPS & SEMINARS

Build With AI, Google Developer Group

Build Bharat Tour 2025 (Blockchain)

Holistic Security & Endpoint Security

COMPETITIONS & ACHIEVEMENTS

CODEXRA CTF, Tech Shastra (VMSB UTU) — 7th Rank (Top 10), Dec 2025

PromptX Hackathon, Devbhumi University — March 2025

POSITIONS OF RESPONSIBILITY

Leader, NSS Unit, Government Polytechnic Kashipur — Aug 2021–Aug 2022

PROFESSIONAL EXPERIENCE

IT Intern | NHPC Limited, Banbasa, Uttarakhand

June 2025 – July 2025

Developed Developed an Internal Complaint Management System using ASP.NET Core MVC and Oracle Express with role-based access (Admin/Employee), complaint tracking, maintenance notifications, and live chat support. Ensured secure, responsive system performance while following best practices in backend development and database integration.

PROJECTS

Security RiskScanner — July 2024–Present

Code security scanner for detecting vulnerabilities (SQL Injection, XSS, hardcoded credentials); generates remediation reports; scan history stored in PostgreSQL; secure and accessible web interface.

RiverGuard — April 2025–Present

River monitoring dashboard with real-time data visualization, role-based access control, admin panel, and automated alerts; built using React, Tailwind CSS, Flask, Firebase, and PostgreSQL.
